

# 油壓平面式裁斷機

- 特點：

- 雙手操作不連續，安全性佳。
- 裁斷沖距可由 10~100m/m 可任意調整，以配合單層或多層材料之裁斷作業。
- 可設定裁斷數量，操作容易，減少材料損失。
- 微調裝置可輕易得到最佳之裁斷點，延長刀模壽命。
- 刀模簡易設定裝置，高低刀模調整，非常簡單，準確快速。
- 節省能源、人工成本，一人操作即可。
- 機台操作簡單，保養容易。

- 用途：

- 製鞋、高級皮革、皮包、帽子、EAV、泡棉、電子材料、塑橡膠等各種模型之裁斷。

- 規格表：(尺寸單位: m/m)

型號	作業面積 (LxH)	壓力	馬力	電熱	機械 重量	裝箱尺寸 (LxWxH)	電源
WS-550	500 x 1560 mm	25 tons	5 HP	3.7 KW	1560 kgs	1950L x 1000W x 1740H	依客戶需求 指定製作

- 在以上標準規格以外之尺寸，可另行設計製造。

# Hydraulic Cutting Machine

## ● Features:

- Operate by both hands, don't continuous, make sure it be safety.
- Cutting-off distance adjustable between 10mm-100mm to accommodate the cutting needs of simple layers or multi-layers.
- Can be setting the quantity of cutting, easy operating and reduce the waste of material.
- Trimming device could find the best cutting point very easily, which also could make the knife mold be longer long lifetime.
- It's very easy and quick to install or adjust the setting with height-and-low of knife mold.
- Saving Electricity and resources. Just need one person to operate.
- Easy operating and maintenance.

## ● Use:

- To cut for various molds of shoe -making, high class leathers, bags, hats, EVA foam, electronic materials, and plastic and rubber, etc.

## ● Specifications: (Unit: m/m)

Model	Working Area (WxL)	Pressure	Horse Power	Electric Heating	Mechanical Weight	Packing Dimension (LxWxH)	Power Supply
WS-550	500 x 1560 mm	25 tons	5 HP	3.7 KW	1560 kgs	1950L x 1000W x 1740H	As Customer's Specified

- We can also accept your order if your requirement is beyond our standard specification.
